### Redondo Beach Blvd. Road Work Slated to Begin

Improvement of the north side of Redondo Beach Blvd. between Crenshaw Blvd. and Dominguez channel is scheduled to begin this week, Supervisor Kenneth Hahn reported yesterday.

Work will consist of reconstructing the shoulder to enable it to be used for the movement of traffic as much as possible.

Supervisor Hahn pointed out that more than 13,000 vehicles a day use this section of Redondo Beach Blvd., which is adjacent to El Camino college, and carries a heavy load of Alondra Park traffic.

He urged all motorists to use extreme caution in driving this roadway during the construction period.

ans with a nonservice-connected ailment, if there is a bed available, and if they can show that they cannot afford private treatment, she explained.

Emergency hospitalization takes preference over all cases as a humanitarian service, she added. To have a patient admitted, the attending physician should telephone the admitting doctor of the VA hospital for permission, and to ask for ambulance service if it is needed.

IF THE ambulance service is not specifically authorized, the VA cannot pay for the ambulance or other transportation for nonservice-connected patients.

Veterans are held responsible for accuracy of statements on which they are admitted, and the attending physician should tell the hospital the nature of the illness or injury and whether the veteran can afford to pay for travel to the hospital, the service officer explained.

Admission forms and assistance in such cases may be obtained from the Veterans Service Center at 1622 Gramercy, she said.

### Garden Checklist

By California Association of Nurserymen

1. When glads are six inches high, spray to control thrips. Repeated sprayings at two or three-week intervals provide insurance against infestation. See your local C.A.N. nurseryman for the right spray.
2. Mulch around Camellias, Rhododendrons, Azaleas and Fuchsias to conserve moisture in the soil. A good layer of peat or planting mix does the trick.
3. For a longer vegetable harvest, make new sowings of Carrots, Radishes, Beets, Squash, Cucumbers and Beans. Parsley can still be sown also.
4. Bearded Iris can be divided after bloom—now or later. If you haven't divided them in three years, they probably need it.
5. Keep after roses. A feeding is in order this month. Continued deep irrigation is always the rule. And keep spraying if aphid or other pests show up.
